HI, I'M GRACE.

I use empathy and research to identify and fulfill needs, always prioritizing the user.

Diligent, resourceful, and determined, I always push myself to learn new skills and improve my work. No challenge is too difficult with the right attitude and a bit of effort.

Outside of work, I enjoy learning the violin, playing boardgames, and catching up on my media list.

EDUCATION

B.S., Cognitive Science [Human-Computer Interaction].

University of California, San Diego. 3.79 GPA. Expected June 2019.
